

**AMENDMENTS TO THE SPECIFICATION**

Please replace the paragraph beginning on page 21, line 20 with the following amended paragraph:

A method for recording (video recording) broadcast programs by using the recording system of this embodiment for recording TV broadcast programs is described next. A program may be used to implement this method and a recording medium may hold the program. An incoming call from another communication party 10 occurs when the user is viewing a TV broadcast program by means of the mobile communications device 20 that is capable of receiving TV broadcasts. Instead of the incoming call, the mobile communications device 20 might make an outgoing call to the other communication party 10.
